

## BOILERS & HORSESHOES?

### THEY HAVE MORE IN COMMON THAN YOU MIGHT THINK.

Though horseshoes are rarely visible, many races and battles have been lost because of deficiencies in this foundational element. Similarly, when out-of-sight boiler parts lack manufacturing integrity, they can cause you stress, delays and unnecessary expense. A tour of our Abilene facility will reveal why you don't have to be concerned about what you can't see on Rentech boilers. Watching our engineers and craftsmen create boilers in our modern plant will convince you that we truly do make boilers for people who know and care.
