

# BOILER REPAIR SERVICES

BOILERS FOR PEOPLE WHO KNOW AND CARE®

*RENTECH delivers boiler repair and support services the same way as it builds their boilers. It is done right the first time.*

As the premiere designer and fabricator of custom boilers in the industry, RENTECH is also the leader in field services and repair of boilers and boiler systems. We specialize in shop-fabricated and on-site repair services.

## **We offer a full range of boiler repair and support services including:**

- Full and partial boiler retube
- Superheater repair and replacement
- Economizer repair and replacement
- Boiler pressure part repair and replacement
- Engineered solutions to replace refractory front and rear walls with water-cooled walls
- Engineered solutions to replace or improve tangent wall designs
- Steam drum internal upgrades
- Panel tubes
- Tube bending
- Fabricated replacement headers

## **OUR FACILITIES**

*RENTECH designs and manufactures its products in a state-of-the-art plant in Abilene, Texas. We have more than 180,000 square feet of manufacturing space at our 79-acre facility. Our facilities combined with the skills, education, quality control and experience of our people make RENTECH the place to go for safe, reliable and efficient boiler systems.*

# We have the practical knowledge, experience and engineering staff to transform your old refractory wall boiler into a new fully water-cooled membrane-walled boiler.

**RENTECH's in-house membrane panel fabrication lines make panel tube fabrication fast and efficient.**

RENTECH's field services team has the expertise to work on a variety of systems including super heater, panel tube and economizers.

RENTECH is now in its second decade of service in the boiler manufacturing industry. We serve a growing number of U.S. and international customers who depend on superior, reliable boilers and boiler field services for success in their everyday operations in a variety of industries.

## OUR PEOPLE

*At RENTECH we have the best people in the business. Our engineers' expertise makes RENTECH the place to go for all your steam or hot water needs. Our company has the staff and experience to provide engineered, integrated boiler systems to meet the most demanding specifications. At RENTECH we pay attention to detail, and our installed product list is full of notable clients who choose RENTECH Boiler Systems for their plant requirements.*

**Our quality control system assures you that we meet all code requirements and project specifications. RENTECH follows standards and codes of the American Society of Mechanical Engineers (ASME), the National Board of Boiler and Pressure Vessel Inspectors (NBIC), PED, CE, API, CSA, CRN, and others, including:**

FIRED BOILERS ■ HRSGs ■ WASTEHEAT BOILERS ■ SCR AND CO SYSTEMS  
BOILER REPAIR SERVICES
